SMART is a support action, co-funded by the FP7, with the aim to offer support to all the organisations operating in the Surface Transport sector in being involved in RTD projects at European level, through networking and partnership opportunities, as well as providing useful information and tools to enhance the active participation in RTD project.

How does SMART support you?

If you are a SME

- **Training** on FP7 programmes for RTD actions
- **Free evaluation of project ideas**
- **Support to set-up your RTD project** and/or link to participate in projects lead by large organisations
- **Visibility** through the NetWORKING and business card areas on the SMART webpage
- Direct **contacts with key global players** on the Surface Transport sector worldwide

If you are a Large Organisation

- Access to a **DB of pre-qualified and selected SMEs**
- Be aware of, and involved in **highly innovative R&D projects** lead by SMEs
- Get **wide visibility** through the NetWORKING and business card areas on the SMART webpage
- Opportunity to support the innovation process of SMEs to achieve **Corporate Social Responsibility objectives**

If you are a Cluster

- Facilitate the involvement of clusters' SMEs in R&D **International projects**
- Provide clusters' members with additional **free services and support** on FP7 projects
- Updated **information on grants** for RTD actions in the transport sector
- Participation in specific **intra-cluster events** to be updated about trends and needs in the Surface Transport sector
- **Visibility** through the SMART web portal

If you are part of University or Research Center

- Be **linked to industrial organisations** for the realisation of RTD projects
- Be aware of, and involved in **highly innovative R&D projects** lead by SMEs
- Participate in specific **networking events** to present your ideas or projects results, creating synergies with other initiatives
- Get **wide visibility** through the NetWORKING and business card areas on the SMART webpage
- **Training** on FP7 programmes for RTD actions
- Free **evaluation of project ideas**

If you are from a Public Authority or Administration

- Get **benefits from the results of RTD projects**
- Participate as an **end-user in research projects**
- **Networking** opportunities interacting with **key global players**, role models and speakers on top industry trend and developments
- Be updated about **policy trends**
- Get **training on FP7** programmes for RTD actions in the field of Surface Transport
- **Free evaluation of RTD project ideas**
